RDH-Maternity Services Measured Blood Loss

NHS
University Hospitals of Derby and Burton
NHS Foundation Trust

Most recent blood results:

Hb:

Platelets:

Date:

Type of birth (circle): NVD Emergency CS Elective CS Ventouse Forceps

Date of birth: **Time of birth:**

Time	Type (small swab, inco, suction etc)	Gross Weight (g)	Dry Weight (g)	Blood Weight (g)	Cumulative loss (ml)
TOTAL					

Metal circular trough	680g	Metal square trough (birth centre suturing bed)	710g	Sterile field (delivery pack)	40g
Inco sheet	40g	Large taped swab	20g	Small swab	7g
Rectal pad	15g	Maternity pad	20g	Tampon	7g
Sterile drape for receiving baby (pink/blue striped)			100g	Towel	260g
Patient gown	280g	Sterile gown	130g	Sterile legging	90g
Pillow case	120g	Flat sheet	580g	Draw sheet	500g
White adult blanket	920g	Green adult thermal blanket	720g	Conti dry wipe	3g

1g of weighed blood = 1ml

To calculate blood loss: Gross weight - Dry weight

TOTAL MEASURED BLOOD LOSS = ……..ml
