Glossary

Abbreviation	Definition

1. PGD template development (PGD Working Group)

PGD Working Group Membership (minimum requirement of consultant, pharmacist and a registered professional who can work under a PGD (or manages the staff who do). If this is a review of existing PGD, <u>replace</u> previous names with the individuals involved for this version

Name	Designation
James Hooley	Medicines Safety Officer (Pharmacist)
Core Adult PGD list maintained by Medicines Safety Group.	Note: No PGD working group convened as this PGD is created by merging detail from multiple authorised PGDs in active use across UHDB which have been developed previously with nursing and medical input.

Where an antimicrobial is included, confirm the name, designation and date of the antimicrobial pharmacist who has reviewed this version

Name of antimicrobial pharmacist	Designation	Date Reviewed
N/A		
	-	-

2. Organisational authorisations

The PGD is not legally valid until it has had the relevant organisational authorisation.

University Hospitals of Derby & Burton NHS Foundation Trust authorises this PGD for use by the services or providers listed below:

Authorised for use by the following organisation and/or services

All UHDB staff providing UHDB services (includes UHDB staff/services undertaken on non-UHDB premises)

This is a core PGD and <u>can</u> be implemented in all adult services where training and resources have been allocated by senior staff to do so (see policy and limitations below if in doubt).

Limitations to authorisation

It is the responsibility of the practitioner working under this PGD to ensure that this PGD is in place in the area they are practising at the time of use. In most cases, this is implicit when a senior manager requests the staff to undertake training and then authorises them in section 7 of this document. However, when working in alternative areas (e.g. internal bank or redeployment) it is important that the practitioner confirms with a departmental manager in the new department that the core PGDs are in-use in their area.

Organisational Authorisation (legal requirement).			
Role	Name	Sign	Date
Chief Pharmacist	Clive Newman	Signed copy held by Pharmacy	12/07/2022

Additional signatories (required as per legislation and locally agreed policy)			
Role	Name	Sign	Date
Medicines Safety Officer (pharmacist)	James Hooley	Signed copy held by Pharmacy	14/06/2022
Clinical Pharmacist from PGD working group			
Medical Director or Deputy	Dr James Crampton	Signed copy held by Pharmacy	22/06/2022
Doctor			
Chief Nurse or deputy	Garry Marsh	Signed copy held by Pharmacy	07/07/2022
Registered Professional representing users of the PGD			

Local enquiries regarding the use of this PGD may be directed to UHDB.PGDgovernance@nhs.net

Section 7 provides a registered health professional authorisation sheet. Individual professionals must be authorised by name to work to this PGD.

3. Characteristics of staff

Qualifications and professional registration	All Divisions, Adult Areas, registered professional with current professional registration operating within their usual scope of practice. Must be a profession permitted by current legislation to practice under a patient group direction.
Initial training	 Completion of all Essential-to-role training as outlined in the UHDB PGD policy. Individual has read and understood full content of this PGD and signed authorisation (section 7) Completion of Medicines Management Drug Assessment
Competency assessment	Staff operating under this PGD are encouraged to review their competency using the <u>NICE Competency Framework for health</u> <u>professionals using patient group directions</u> Individuals operating under this PGD are personally responsible for ensuring they remain up to date with the use of all medicines included in the PGD - if any training needs are identified these should be discussed with either the authorising manager (section 7) or the manager within the PGD working group (section 1) so that further training can be provided as required.
Ongoing training and competency	Annual Medicines Safety Training (essential to role) Review/repeat initial training above when this PGD is revised
	medication rests with the individual registered health de by the PGD and any associated organisation policies.

Clinical condition or situation to which this PGD applies	Patients with pulmonary mucous consolidation
Criteria for inclusion	Adults over 16 years of age
Criteria for exclusion	Hypersensitivity to any of the ingredients (for patients with allergies, check packaging and leaflets provided for any additional excipients – in some cases only sodium chloride and sterile water are present)
Cautions including any relevant action to be taken	None
Action to be taken if the patient is excluded	 Record reasons for exclusion in patient notes Advise patient on alternative treatment Refer to medical staff or prescriber for review and prescribing of alternative agent if appropriate.
Action to be taken if the patient or carer declines treatment	 Document advice given Advise patient on alternative treatment Refer to medical staff if appropriate.
Arrangements for referral for medical advice	Contact your ward or clinic medical team in the first instance except in the event of anaphylaxis/cardiac arrest when you should follow your local medical emergency procedures (e.g. 2222 / 3333 / 999 procedures)

4. Clinical condition or situation to which this PGD applies

5. Description of treatment

Name, strength & formulation of drug	Sodium Chloride 0.9% solution for nebulisation
Legal category	РОМ
Route / method of administration	Inhaled via air-driven nebuliser.
Indicate any off-label use (if relevant)	n/a
Dose and frequency of administration	Usually 5mls every 4-6 hours but may also be repeated back to back following an urgent referral for medical review
Duration of treatment	Up to 24 hours if given 4-6 hourly. Back to back nebulisation should only continue whilst awaiting urgent medical review
Quantity to be supplied (leave blank if PGD is administration ONLY)	n/a
Storage	Do not store above 25°C; Store in the original packaging in order to protect from light. Discard any remaining solution immediately after use.

University Hospitals of Derby and Burton NHS Foundation Trust

Drug interactions	None known
Identification & management of adverse reactions	Sodium chloride nebules are not expected to cause any undesirable effects in normal use. However bronchospasm can be exacerbated by any nebulisation therapies (see patient advice below).
Management of and reporting procedure for adverse reactions	 Healthcare professionals and patients/carers are encouraged to report suspected adverse reactions to the Medicines and Healthcare products Regulatory Agency (MHRA) using the Yellow Card reporting scheme on: <u>https://yellowcard.mhra.gov.uk</u> Record all adverse drug reactions (ADRs) in the patient's medical record. Serious adverse reactions (moderate harm or above as per NRLS definition) should be reported via trust incident management system (e.g. Datix) to ensure duty of candour and learning from harm during clinical use.
Written information to be given to patient or carer	Give marketing authorisation holder's patient information leaflet (PIL) provided with the product.
Patient advice / follow up treatment	Report any increased difficulty in breathing which may be a sign of bronchospasm
Records	 For inpatients, the record of administration must be documented in the ePMA system or medicines chart used in your area. For other areas, an ePMA system should be used if in-use in your area as this will ensure all legal criteria are fulfilled and auditable. Otherwise, records can be made in the medical notes or within the patient pathway (e.g. in daycase or triage where a pathway booklet is in use) but must include the legal requirements below. Either the system holding the record, or the healthcare practitioner working under the PGD, must capture/document all of the following: name of individual, address, date of birth and GP with whom the individual is registered (if relevant) name of medication supplied/administered date of supply/administration dose, form and route of supply/administration quantity supplied/administered batch number and expiry date (if applicable e.g. injections and implants) advice given, including advice given if excluded or declines treatment details of any adverse drug reactions and actions taken Confirm whether <u>supplied and/or administered</u> via Patient Group Direction (PGD) Records should be signed and dated (or a password controlled e-records). All records should be clear, legible and contemporaneous.

receiving treatment under this PGD should also be in the clinical
area for audit purposes as per UHDB PGD policy.

7. Registered health professional authorisation sheet

PGD Name [version]: Sodium Chloride 0.9% nebules [v1.0] PGD ref: UHDB193

Valid from: 12/07/2022 Expiry date: 11/07/2025

Before signing check that the document you have read is published on Koha or is an in-date hard-copy with all necessary authorisations signed in section 2. The Name/Version/Ref of the document you have read MUST match this authorisation form.

Registered health professional

By signing this patient group direction you are indicating that

a) You agree to and understand all content and commit to only work within this framework.

b) You have completed any core PGD e-Learning or training records on My Learning Passport or within your department.

c) You meet the staff characteristics and have completed any additional learning/competency outlined in Section 3 of this PGD.

Patient group directions do not remove inherent professional obligations or accountability.

It is the responsibility of each professional to practise only within the bounds of their own competence and professional code of conduct.

I confirm that I have read and understood the content of this Patient Group Direction and that I am willing and competent to work to it within my professional code of conduct.

Name	Designation	Signature	Date

Authorising manager / Assessor

I confirm that the registered health professionals named above have declared themselves suitably trained and competent to work under this PGD. I give authorisation on behalf of University Hospitals of Derby & Burton NHS Foundation Trust for the above named health care professionals who have signed the PGD to work under it.

Name	Designation	Signature	Date

Note to authorising manager

Score through unused rows in the list of registered health professionals to prevent additions post managerial authorisation.

This authorisation sheet must be retained by a manager in the clinical department where the PGD is in-use to serve as a record of those registered health professionals authorised to work under this PGD.
