How to add an alert to Lorenzo:

Enter the **patients EPR** in your usually way (from ward peg board, or by putting in hospital number etc. then select the **Health Issues** tab on the right hand side of the screen:

Select the Alerts tab and then Record alert on the left side menu:

In this new window, choose these options: Alert type: Clinical Alert name: Anaesthetic Risk Alert description: This box is free text so you can input any information

eg difficult intubation or Grade 4 Intubation etc
