

# **PATIENT GROUP DIRECTION (PGD)**

Administration of iodinated contrast agent (oral administration) By registered therapeutic radiographers in Radiotherapy at Royal **Derby Hospital** 

## **Documentation details**

Reference no:	UHDB011
Version no:	2.0
Valid from:	15/08/2023
Review date:	15/02/2026
Expiry date:	14/08/2026

# **Change history**

Version number	Change details	Date
1.0	New PGD	19/01/2021
2.0	Changes to scope	18/07/23

# **Glossary**

Abbreviation	Definition

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 1 of 10

#### 1. **PGD** template development (PGD Working Group)

PGD Working Group Membership (minimum requirement of consultant, pharmacist and a registered professional who can work under a PGD (or manages the staff who do). If this is a review of existing PGD, replace previous names with the individuals involved for this version

Name	Designation
Sue Marriott	Radiotherapy Services Manager
James Hooley	Pharmacist, Clinical Governance & Medicines Safety
Prantik Das	Consultant Oncologist (ACD)
Maja Moldawa	Divisional Lead Pharmacist, CDCS

Where an antimicrobial is included, confirm the name, designation and date of the antimicrobial pharmacist who has reviewed this version

Name of antimicrobial pharmacist	Designation	Date Reviewed
Not required	N/A	N/A

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 2 of 10

#### 2. Organisational authorisations

The PGD is not legally valid until it has had the relevant organisational authorisation.

University Hospitals of Derby & Burton NHS Foundation Trust authorises this PGD for use by the services or providers listed below:

### Authorised for use by the following organisation and/or services

RDH is listed in the title, as the radiotherapy service is not being delivered on any other sites at the point of publication.

If the service is extended to any other sites, the PGD Governance group is to be contacted to authorise via uhdb.pgdgovernance@nhs.net

Minor amendments may be required at alternative sites in relation to medical contact or escalation.

### Limitations to authorisation

None in addition to the framework described in the remainder of this document.

Organisational Authorisation (legal requirement).			
Role	Name	Sign	Date
Medicines Safety Officer	James Hooley	Signed copy held by Pharmacy	15/08/2023
Pharmacist: Chief Pharmacist or assigned deputies)			

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 3 of 10

Additional signatories (required as per legislation and locally agreed policy)			
Role	Name	Sign	Date
Divisional Pharmacist	Maja Moldawa	Signed copy held by Pharmacy	31/07/2023
Clinical Pharmacist from PGD working group		-	
ACD for Cancer Business Unit	Dr Vijayan	Signed copy held by Pharmacy	03/08/2023
Doctor			
Principal Pre-Treat Superintendent Registered Professional representing users of the PGD	Michelle Bradley	Signed copy held by Pharmacy	03/08/2023
n/a	n/a	n/a	n/a
CD Accountable Officer (CDs only)			

Local enquiries regarding the use of this PGD may be directed to <a href="https://www.uhman.ed/">UHDB.PGDgovernance@nhs.net</a> Section 7 provides a registered health professional authorisation sheet. Individual professionals must be authorised by name to work to this PGD.

## 3. Characteristics of staff

Qualifications and professional registration	Radiotherapy staff Therapeutic radiographer with current HCPC registration
Initial training	- Completion of all Essential-to-role training as outlined in the
initial training	UHDB PGD policy Individual has read and understood full content of this PGD
	and signed authorisation (section 7)
	<ul> <li>Has undertaken appropriate training in the administration of oral contrast agents.</li> </ul>
Competency assessment	Completion of Electronic Training Record
	State registered therapeutic radiographer with a current registration.
	Staff operating under this PGD are encouraged to review their
	competency using the NICE Competency Framework for health professionals using patient group directions
	professionals using patient group directions
	Individuals operating under this PGD are personally responsible for
	ensuring they remain up to date with the use of all medicines included in the PGD - if any training needs are identified these
	should be discussed with the either authorising manager (section 7)
	or the manager within the PGD working group (section 1) so that further training can be provided as required.
Ongoing training and	Annual UHDB essential-to-role training for medicines
competency	management/safety.
The decision to supply any	medication rests with the individual registered health

professional who must abide by the PGD and any associated organisation policies.

## 4. Clinical condition or situation to which this PGD applies

Clinical condition or situation to which this PGD applies	To be administered to patients as an inherent part of a justified Radiotherapy Planning CT scan/ Cone Beam CT.  Administration must be according to the protocol / agreed scheme of work for the planning CT scan/Cone Beam CT for SABR intraabdominal tumours
Criteria for inclusion	Justified Radiotherapy requests for planning CT scans requiring contrast enhancement for patients over 16 years of age requiring a Radiotherapy planning CT scan to support the Radiotherapy planning process.  Justified Radiotherapy requests for SABR intra-abdominal tumours.
Criteria for exclusion	Contra-indications (exclusion criteria) are identified via verbal prescan checks with the patient.  • Patients under 16 years of age
	<ul> <li>Patients who have experienced a previous significant reaction to iodinated contrast agent.</li> <li>Neat Gastrografin must not be administered in dehydrated patients</li> </ul>
	or in patients with suspected possibility of aspiration or broncho- oesophageal fistula.
Cautions including any relevant action to be taken	Patients with cautions (identified via verbal pre-scan checks) may still be administered contrast depending on the severity. Any concerns should be clarified and documented with the referring Consultant Clinical Oncologist prior to contrast administration.
	<ul><li>Severe asthma</li><li>Multiple allergies</li><li>Heart problems</li><li>Diabetes</li></ul>
	Pregnancy or lactation: Discuss with a Consultant Clinical Oncologist prior to administration.
	• Kidney problems Renal Function: Clinicians must indicate if a patient is in a renal failure, and the degree of renal failure, on the Radiotherapy referral. (See Trust Prevention of Contrast Induced Acute Kidney Injury (AKI) CG-T/2011/104). The Radiotherapy Department pre-administration check includes kidney problems as a 'safety net' in case referrers have omitted this information.
Action to be taken if the patient is excluded	<ul> <li>Record reasons for exclusion on CRIS (or medical notes)</li> <li>Advise patient on alternative treatment</li> <li>Document and inform patient on any advice from Consultant Clinical Oncologist if discussed</li> </ul>
Action to be taken if the patient or carer declines treatment	<ul> <li>Document refusal and advice given on CRIS (or medical notes)</li> <li>Advise patient on alternative treatment</li> </ul>

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 6 of 10 RDH - Radiotherapy - Iodinated Contrast Agent (oral)

Arrangements for referral for medical advice	Contact a Consultant Clinical Oncologist / registrar if present in the Radiotherapy department.  If no Consultant Clinical Oncologist in the Radiotherapy Department:
	<ul> <li>Bleep 1296 / Ext. 83289 / 86104 for medical assistance</li> <li>Contact Resus team using 2222 for a deteriorating patient</li> </ul>

## 5. Description of treatment

Name, strength & formulation of drug	lodinated contrast media: Gastrografin: 100mg/ml sodium amidotrizoate & 660mg/ml meglumine amidotrizoate.
Legal category	P or POM
Route / method of administration	Oral
Indicate any off-label use (if relevant)	n/a
Dose and frequency of administration	Gastrografin (opacification of GIT): As Required. Usual Dose – 10ml in 500ml of water.  (as per : CT 5.15.01 – Contrast Agents Used and Related Anatomical Sites)
Duration of treatment	Length of Radiotherapy planning CT scan/length of Cone Beam CT including prep time and treatment
Quantity to be supplied (leave blank if PGD is administration ONLY)	Administration only
Storage	Stock must be securely stored according to UHDB medicines policy and in conditions in line with SPC as detailed below:  Protect from light and X-rays. Store below 25 °C.
Drug interactions	<ul> <li>Hypersensitivity reactions can be aggravated in patients on beta-blockers.</li> <li>Previous treatment (up to several weeks) with Interleukin-2 is associated with an increased risk of delayed reactions to Gastrografin.</li> <li>Interference with diagnostic tests - Radioisotopes: Diagnosis and treatment of thyroid disorders with thyrotropic radioisotopes may be impeded for up to several weeks after administration of iodinated contrast agents due to reduced radioisotope uptake.</li> <li>A detailed list of drug interactions is available in the SPC, which is</li> </ul>
	available from the electronic Medicines Compendium website:  www.medicines.org.uk
Identification & management of adverse reactions	Undesirable effects in association with the use of iodinated contrast media are usually mild to moderate and transient in nature. However, severe and life-threatening reactions as well as deaths have been reported.  Seek immediate medical assistance in the event of anaphylaxis or suspected anaphylactic symptoms.  Common:

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 7 of 10

	NHS Foundation Trust
Management of and reporting procedure for adverse reactions  Written information to be given to patient or carer	<ul> <li>Feeling hot Uncommon:</li> <li>Nausea &amp; vomiting</li> <li>Diarrhoea</li> <li>Rare:</li> <li>Allergy like reactions including anaphylaxis</li> <li>Bradycardia or Tachycardia</li> <li>Headache / Dizziness</li> <li>Decreased renal function</li> <li>Oedema / Rash / Pruritis</li> <li>Fluid or electrolyte imbalance</li> <li>Very rare:</li> <li>Hypertension</li> <li>Hypertension</li> <li>Abdominal pain</li> <li>Bronchospasm / Dysponoea</li> <li>Hyperthyroidism</li> <li>A detailed list of adverse reactions is available in the SPC, which is available from the electronic Medicines Compendium website: <a href="https://www.medicines.org.uk">www.medicines.org.uk</a></li> <li>The clinical area requires access to Oxygen, suction, emergency drugs (minimum, anaphylaxis box), telephone</li> <li>Healthcare professionals and patients/carers are encouraged to report suspected adverse reactions to the Medicines and Healthcare products Regulatory Agency (MHRA) using the Yellow Card reporting scheme on: <a href="https://yellowcard.mhra.gov.uk">https://yellowcard.mhra.gov.uk</a></li> <li>Record all adverse drug reactions (ADRs) in the patient's medical record (or CRIS).</li> <li>Serious adverse reactions (moderate harm or above as per NRLS definition) should be reported via trust incident management system (e.g. Datix) to ensure duty of candour and learning from harm during clinical use.</li> <li>Seek immediate medical assistance in the event of serious adverse reactions, anaphylaxis or suspected anaphylactic symptoms.</li> <li>Written advice is provided in the patient Information leaflet given to the patient prior to the planning CT scan. Monitor for sensitivity reactions.</li> </ul>
Patient advice / follow up treatment	Inform the individual/carer of possible side effects and their management.  The individual/carer should be advised to seek medical advice in the event of sensitivity reactions or adverse reaction of concern
Records	Details of the drug and staff involved in its administration should be recorded as set out in Radiotherapy protocols:  - Documented contraindications check in Aria checklist.  - A record of who supplied, prepared, checked and administered the drug.  All required information will be documented in Aria, will include initials or signatures; and will also subsequently be recorded in
	CRIS.

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 8 of 10 RDH - Radiotherapy - Iodinated Contrast Agent (oral)

Either the system holding the record, or the healthcare practitioner working under the PGD, must capture/document all of the following:

- name of individual, address, date of birth and GP with whom the individual is registered (if relevant)
- name of registered health professional
- name of medication supplied/administered
- date of supply/administration
- dose, form and route of supply/administration
- quantity supplied/administered
- batch number and expiry date (if applicable e.g. injections and implants)
- advice given, including advice given if excluded or declines treatment
- details of any adverse drug reactions and actions taken
- Confirm whether supplied and/or administered via Patient Group Direction (PGD)

Records should be signed and dated (or a password controlled erecords).

All records should be clear, legible and contemporaneous.

If you are not recording in ePMA (or other electronic system which has ability to generate audit reports) then a record of all individuals receiving treatment under this PGD should also be in the clinical area for audit purposes as per UHDB PGD policy.

## 7. Registered health professional authorisation sheet

**PGD Name:** Supply/Administration of iodinated contrast agent (oral administration) By registered therapeutic radiographers in Radiotherapy at Royal Derby Hospital [v2.0]

PGD ref: UHDB011

Valid from: 15/08/2023 Expiry date: 14/08/2026

Before signing check that the document you have read is published on Koha or is an in-date hard-copy with all necessary authorisations signed in section 2. The Name/Version/Ref of the document you have read MUST match this authorisation form.

#### Registered health professional

By signing this patient group direction you are indicating that

- a) You agree to and understand all content and commit to only work within this framework.
- b) You have completed any core PGD e-Learning or training records on My Learning Passport or within your department.
- c) You meet the staff characteristics and have completed any additional learning/competency outlined in Section 3 of this PGD.

Patient group directions do not remove inherent professional obligations or accountability.

It is the responsibility of each professional to practise only within the bounds of their own competence and professional code of conduct.

ı	I confirm that I	l have read a	nd understood t	the content of tl	his Patient G	roup Direction a	and
•	that I am willin	g and compe	etent to work to	it within my pro	ofessional co	ode of conduct.	

Name	Designation	Signature	Date

#### **Authorising manager / Assessor**

I confirm that the registered health professionals named above have declared themselves suitably trained and competent to work under this PGD. I give authorisation on behalf of University Hospitals of Derby & Burton NHS Foundation Trust for the above named health care professionals who have signed the PGD to work under it.

Name	Designation	Signature	Date

## Note to authorising manager

Score through unused rows in the list of registered health professionals to prevent additions post managerial authorisation.

This authorisation sheet must be retained by a manager in the clinical department where the PGD is in-use to serve as a record of those registered health professionals authorised to work under this PGD.

PGD Ref:UHDB011 Valid from: 15/08/2023 Expiry date: 14/08/2023 Page 10 of 10
